## STATEMENT FROM THE CHAIRMAN ACADEMIC YEAR 2015 (7/14 - 6/15)

Dear Colleagues and Friends:

I am pleased to provide you the Annual Report of the Department of Medicine at the University of Florida-College of Medicine - Jacksonville for the academic year July 2014 through June 2015. The Department once again has excelled in every aspect of the academic mission. The following is a brief description of the departmental accomplishments for the past year.

**Patient care**: The clinical volumes in all subspecialties remained strong. Five subspecialties initiated patient care activities in the North side campus. The clinical excellence of the faculty was coupled with continued improvements in clinical operations. The lag time for access to clinics improved and the no show rates were decreased. These improvements helped to enhance the patient satisfaction scores and staff morale.

**Education:** There were 14 faculty members in the Department who received the Exemplary Teacher Award. The scholarly productivity of the house staff remains high and one third of presentations of the Annual Research Day were made by the residents and fellows within the Department. Continuing Medical Education (CME) initiatives were offered by several Divisions within the Department including a highly successful Internal Medicine review symposium, annual Nephrology symposium and musculo-skeletal ultra sound course.

**Research:** There were a total of 87 peer reviewed publications, 8 book chapters and 14 monographs authored by faculty members. Faculty made 141 national and regional presentations. During the academic year 2015, we saw doubling of extramural research funding within the Department.

Overall, the Department continues to excel in its mission of educating students and residents and faculty has maintained their scholarly productivity. Once again, I am proud to have the privilege of being the Chairman of such an exceptionally productive Department.

Sincerely,

Arshag D. Mooradian, M.D. Professor and Chairman

## DEPARTMENT ORGANIZATIONAL OVERVIEW ACADEMIC YEAR 2015 (7/14 - 6/15)

### Arshag D. Mooradian, M.D.

Chairman, Department of Medicine

### Linda R. Edwards, M.D.

Associate Chair, Department of Medicine

### James Scolapio, M.D.

Associate Chair, Department of Medicine

### Jeffrey House, D.O.

Program Director, Internal Medicine Residency

### Carlos Palacio, M.D., M.P.H.

Associate Program Director, Internal Medicine Residency and Associate Director, Medical Student Clerkship

### Nilmarie Guzman, M.D.

Associate Program Director, Internal Medicine Residency

### Cristian Landa, M.D.

Director, Medical Student Clerkship

### Michael Haas, Ph.D.

Director of Research

### Ronald Stone, M.B.A., R.D.

Administrator

### **DIVISION CHIEFS**

**Cardiology** Theodore Bass, M.D.

**Endocrinology, Diabetes and Metabolism**Kent R. Wehmeier, M.D.

Gastroenterology James Scolapio, M.D.

General Internal Medicine Linda R. Edwards, M.D.

**Hematology and Medical Oncology** Fauzia Rana, M.D.

**Infectious Disease** Michael Sands, M.D., M.P.H. & T.M.

Nephrology and Hypertension Charles Heilig, M.D.

Pulmonary, Critical Care and Sleep Medicine

Abubakr Bajwa, M.D.

**Rheumatology and Clinical Immunology**Gurjit Kaeley, M.D.

## GRADUATE MEDICAL EDUCATION ACADEMIC YEAR 2015 (7/14 - 6/15)

### **Highlights**

The office of Graduate Medical Education (GME) had another successful year of program maturation and leadership development. The year was highlighted high quality scholarly work by resident physicians, as well as a remarkable increase in the numbers of presentations and publications by the House Staff. The 2015 Match was also very successful for the upcoming intern class, and our graduates had similar successes in attaining fellowship training opportunities for the next academic year. Areas such as Quality Improvement, Patient Safety, milestones, disparities in health care delivery, and transitions in care were just some of the subjects of focus for the training programs. The following report will detail some of the academic highlights over the past year.

As with years past, the residency program continues to enjoy success in the ABIM pass rate. Considered a major barometer to the academic success of any residency program, this remains a focus for the core program as well as the fellowships. The ABIM routinely monitors and reports the three year rolling average of all programs in the country. The core program is proud to report that the three year rolling average for its graduates is 91%, with is significantly higher than the national average of 85%. This is also higher than most internal medicine training programs within the state of Florida. This success is a testament to the hard work the trainees have put into board preparation as well as the teaching contributions from the faculty.

As previously mentioned, the graduating residents of 2015 were able to land a number of high quality fellowships. Most of the residents who applied to residency were successful in getting into the fellowships of their choice. Nine of our graduates have gone on to programs in various specialties, including infectious disease, nephrology, cardiology, pulmonary/critical care, and hematology/oncology. As in years past, half of our future fellowship trainees are staying here, while the other half are studying abroad at programs such as Medical College of Georgia, Henry Ford, Vanderbilt, University of Kentucky, University of Virginia, and New York. Three graduates pursued there interest in Hospital Medicine, and we were lucky enough to keep two strong leaders as chief residents.

This year's chief residents continued to meet the high standard that we become accustomed to having lead our program. Drs. Bellardini and Touchan were on the front lines teaching high quality morning report conferences, running ward services, urgent care clinic, simulation training sessions, and medical student teaching sessions. Their leadership and teaching will make or break an academic year, and this year's accomplishments are a direct reflection of their efforts. Dr. Guzman continues to mature in her role as Associate Program Director. Assigned to the daunting task of creating, maintaining and updating curriculum, she is now is directly responsible for the didactics that or residents receive. New in this area is the addition of a "High Yield Board Topics" lecture series that is designed to prepare residents for their future ABIM exam. In its second year, it remains some of our most popular lecture series for our trainees. The program has also benefited from the continued advancement and leadership of Dr. Palacio. His creativity has resulted in a number of new experiences which the trainees have benefited from, including working at the Sulzbacher Center. Although he continues to be successful with scholarship as well as clerkship, he has the newly added role as chair of the Clinical Competency Committee. Dr. Palacio has continued to work as Chair of the Clinical Competency Committee, an assembly charged with the important task of assessing resident's performance and advancement to eventual goal of independent practice.

The Department of Medicine was successful again in receiving several Exemplary Teacher Awards. This year's 14 recipients are as follows: Dominick J. Angiolillo, Abubakr A. Bajwa, James D. Cury, Nilmarie Guzman, Michael J. Haas, Alan K. Halperin, Jeffrey G. House, Cristian O. Landa, Ghania F. Masri, Diana I. Mercado, Juan C. Munoz, Carlos Palacio, M.D., Michael L. Sands, and Vandana Seeram. About 28% of platform and poster presentations of fellows and residents were made by the members of the Department and 14 posters (out

of 41) were presented by our faculty and postdoctoral associates. Of the platform presentations Dr. Kaitlin McCurdy was the fourth place prize winner and Dr. Saif Ibrahim received the 6th place prize. Among the poster presentations cardiology fellows Dr. Lydia Engwenyu was the 1st place prize winner and Dr. Kamaldeep Singh received the 2nd place prize. The residents continue to work tirelessly on abstract presentations for local, regional and national platforms. Residents continue to gravitate toward high quality conferences, including the Duval County Medical Society, Florida Chapter American College of Physicians Meetings (both spring and fall), American Federation for Medical Research Southern Regional Meeting, Southern Hospital Medicine Conference, CHEST Annual Meeting, Digestive Disease Week, and the American College of Gastroenterology Annual Meeting. Residents continue to impress in sheer volume of scholarly endeavors, producing greater than 100 presentations, publications, abstracts, and grants. Presentations alone more than doubled any efforts from years past. This eclipses the previous academic year, which had previously been the highest mark to date.

<u>Subspecialty Fellowship Programs</u>: The fellowship programs continue to have success, and many of their individual accomplishments are detailed in their division reports. Of note, most programs are now stable with an Assistant Program Director, to assist with the ever increasing ACGME requirements. These additions help stabilize programs and relieve the stress for Program Directors, Program Administrators, and trainees. Most programs were successful in the MSMP match, and in fact had the fewest number of trainees that they've had to scramble for in several years. Fellowship programs continue to work toward innovative strategies for teaching, research, recruitment, and even expansion.

<u>Student Education:</u> Dr. Cristian Landa and Dr. Carlos Palacio continued to promote student education within the department. Students consistently rated the inpatient internal medicine experience as one of high quality and a great learning environment. On the outpatient setting, students had more exposure to IM subspecialties, which were also very well received. There was a very high demand from visiting medical students for rotations on this campus and this past year had the highest number of external students than any preceding year. Visiting students rotated on internal medicine, inpatient cardiology, MICU, endocrinology, infectious disease, and nephrology. These students enjoyed the learning environment so much, that the intern class for the subsequent academic year was largely made from students that rotated on this campus.

<u>Issa R, Baidoun F, Kanar O</u>. K2 (synthetic marijuana) induced altered mental status and renal insufficiency. Poster presentation at: Southern Hospital Medicine Meeting; Atlanta, GA. October 2014.

<u>Ibrahim S</u>. Controlling atrial fibrillation by atrial flutter ablation in the presence of LA enlargement. Poster presentation at: Southern Hospital Medicine Meeting; Atlanta, GA. October 2014.

<u>Ibrahim S</u>. Hemoconcentration as a marker of decongestion in patients with acute compensated heart failure. Poster presentation at: Southern Hospital Medicine Meeting; Atlanta, GA. October 2014.

<u>Gupta E</u>. Bronchial carcinoid mimicking as asthma. Poster presentation at: Southern Hospital Medicine Meeting; Atlanta, GA. October 2014. 3rd place winner.

<u>Baldeo C</u>. Pulmonary tuberculosis in an HIV negative patient with sickle cell trait. Poster presentation at: Southern Hospital Medicine Meeting; Atlanta, GA. October 2014.

<u>Baldeo C</u>. Dyspnea on exertion in an otherwise healthy male. Poster presentation at: Southern Hospital Medicine Meeting; Atlanta, GA. October 2014.

<u>Al-Saffar F.</u> Use of EBUS to evaluate endovascular lesions in pulmonary arteries- a systematic review. Poster presentation at: International Lung Cancer Congress Meeting; Huntington Beach, CA. August 2014.

<u>Nakshabendi R.</u> Effects of treatment with immunomodulators and biologic agents on sleep health in inflammatory bowel disease patients. Poster presentation at: Florida Chapter American College of Physicians; Fort Lauderdale, FL. August 2014.

<u>Tariq K</u>. Efficacy of neoadjuvant cisplatin and oral capecitabine in triple-negative breast cancers: a pilot study first. Poster presentation at: Florida Chapter American College of Physicians; Fort Lauderdale, FL. August 2014.

<u>Cerda M.</u> Hemoconcentration as a marker of decongestion in patients with acute decompensated heart failure. Poster presentation at: Florida Chapter American College of Physicians; Fort Lauderdale, FL. August 2014.

Nakshabendi R. A rare case of primary colorectal melanoma. Poster presentation at: Florida Medical Association Annual Meeting; Orlando, FL. July 2014.

### **HONORS AND AWARDS**

Khadeeja Esmail, MD Amit Babbar, MD Cristian Landa, MD Saif Ibrahim, MD Saif Ibrahim, MD Farah Al-Saffar, MD Intern of the Year Resident of the Year Teacher of the Year Best Conference Attendance Procedure Completion ACP Resident of the Year

Melissa Dakkak, DO; Ryan Kunjal, MD and Taylor Palfrey, MD competed for the American College of Physicians, Florida Chapter - Doctor's Dilemma™ State Team.

Amit Babbar, MD has been awarded the resident UF College of Medicine Exemplary Teachers Award.

Cristian Landa, MD was the recipient of the UF College of Medicine Excellence in Student Education Award.

Saif Ibrahim, MD was awarded the Malcolm T. Foster, Jr., MD Scholarship Award.

Annual Report AY 2015 16 Graduate Medical Education

### **ENDOWMENTS AND GIFTS**

The Anne and Max Michael, Jr. Education Fund, Established 2006, by Mrs. Anne Michael

### DEPARTMENT RESEARCH ACADEMIC YEAR 2015 (7/14 - 6/15)

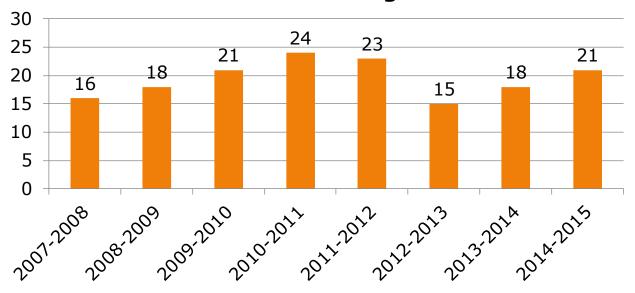

The faculty in the Department of Medicine continue to obtain research awards and train future investigators; an important aspect of the University of Florida College of Medicine-Jacksonville's mission. Trends in external funding for the past seven years are shown in **Figure 1**.

### **Total Grant Revenue**

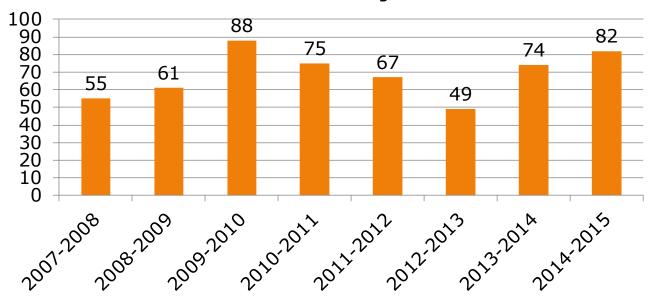

External funding from federal, state, industry and foundation sources increased 44.6% this fiscal year compared to last. This correlated with a slight increase in the number of funded investigators (from 18 investigators last fiscal year to 21 investigators this fiscal year) (**Figure 2**) and a significant increase in the number funded projects (from 74 projects last fiscal year to 82 this fiscal year) (**Figure 3**).

## # Funded Investigators

## # Funded Projects

Several faculty members in the Department of Medicine have basic/translational science projects in the Medical Research Building. **Michael Haas, Ph.D.** (Endocrinology) is investigating molecular mechanisms that regulate expression of genes involved in cholesterol transport and oxidative and endoplasmic reticulum stress in endothelial cells. **Kent Wehmeier, M.D.** (Endocrinology) is investigating cholesterol metabolism and transport in osteocytes. **Charles Heilig, M.D.** (Nephrology and Hypertension) is examining the regulation of glucose transporter 1 expression by mechano-growth factor as well as examining the role of glucose transporters in liver cancer. **Leighton James, M.D.** (Nephrology and Hypertension) is examining the roles of various growth factors in diabetic kidney disease.

Residents and sub-specialty fellows in the Department of Medicine are assigned a mentor and participate in basic, translational, epidemiological, or clinical research. Three residents and fellows in the Department of Medicine received Deans Fund Research Grant funding, enabling them to carryout research projects under the mentorship of faculty. This has increased the scholarly output of our trainees. At Research Day, 28% of the presentations were from residents and sub-specialty fellows in the Department of Medicine. **Dr. Kaitlin McCurdy** and **Dr. Saif Ibrahim** placed fourth and sixth place, respectively, in the oral platform competition. **Dr. Lydia Engwenyu** received the first place prize and **Dr. Kamaldeep Singh** received the second place prize for their poster presentations. These great outcomes are in part due to the desire and hard work of their faculty mentors. **Michael Haas, Ph.D.** has also worked with interns from the **Florida State College of Jacksonville Biotechnology** program.

### DIVISION OF CARDIOLOGY ACADEMIC YEAR 2015 (7/14 - 6/15)

### **Highlights**

- Brought CT surgery under Cardiology. Expanded the CT surgery program by hiring PA's, CVICU Coordinator and assisted with bringing in new OR Heart team members. Opened new 17 bed CVICU.
   Volume of CT surgery cases has gone up by 60% in the last year.
- Fully opened Northside Practice. Expanded services to the North Campus offering patients Invasive and Non-invasive testing as well as office visits.
- Started the TAVR program, 20 cases have been performed with great success.
- Opened Hybrid OR in the Invasive Suite
- Expanded the Peripheral Vascular Program with Dr. Antoun collaborating with UF and non-UF podiatrist and Vascular Surgery performing cases in the Hybrid Room.
- Dr. Patrick Antoun, new Medical Director of CCU, has put programs in place that have improved the communication, among the physician/fellows and nurses in the CCU as well as improved the efficiency and effectives of daily Rounds.
- Dr. Pirris took over the leadership of the Valve Program/Committee. New processes in place to identify Valvular heart Disease patients and have them seen and treated earlier.
- Restructured Emerson office, new staff, new physician assignments to Emerson office
- Continued to expand Cardiovascular Research program to include CT surgery research projects.
- Relocated Cardiovascular Research program to previous Blood Alliance building located by Proton Center.

### Cardiology Goals for 2015-16 are as follows:

- Continue to expand CT surgery program, market CT surgery, Dr. Pirris, robotics program, minimally invasive program.
- Continue to expand TAVR program with larger referral base.
- Dr. Leslie Oberst staring Nov. 2015, will work with Radiology to develop a comprehensive Cardiac MR/CT program
- Expand North side services, adding Physicians to North office.
- Work with Podiatry on partnership program for Wound care/Limb Salvage program.
- Continue to promote and expand the Women's Heart Program, with more community events, more outreach programs.
- Completely restructure the Cardiology/CT surgery website/webpages.
- Organize more Physician to physician marketing ventures, with a focus on our High Risk PCI program and CT surgery program
- Develop a Remote Monitoring Program in EP division. Hiring 2<sup>nd</sup> Arrhythmia Nurse.
- Purchase new D-Spec nuclear camera, advance the Cardiac Nuclear Imaging program
- New 4D ECHO systems being purchased for Non-invasive lab, enhance non-invasive testing program

**Education:** The fellowships programs remain competitive and are comfortably in mid review cycles. Our fellows and residents have received several research awards including Dean's grants and several presentations on Research Day. Our post doc research fellows have also received this recognition.

The following initiatives have taken place this year:

- Implemented Monday Morning Report: Mandatory meeting for ALL fellows to discuss important, challenging, complex cases that present to CCU over the weekend or preceding week.
- Created goals and objectives for every clinical and nonclinical rotation
- Increased the number of Board Review/In training exam review sessions to twice a month
- Established a new agreement for an advanced imaging rotation at Mayo

- Increased the number of guest lecture faculty participating in our weekly didactic conference sessions
  - o Established a pulmonary series with Dr. Bajwa (UF Jax)
  - o Established an advance imaging series with Dr. Shapiro (Mayo)
  - o Established an advance HF series with Dr. Parag Patel (Mayo)
- Will be integrating a fellow's case session in the Annual Women and Cardiovascular Disease Symposium this coming January 2016

**Research:** Our faculty continues to excel in research, scholarly production and participation in national and international scientific sessions. We have nearly 50 ongoing studies, which range from basic/translational research to large scale clinical trials. These embrace investigator initiated as well as sponsored studies. We have published approximately 40 peer-reviewed manuscripts, numerous abstracts and presentations at local, national and international meetings and several book chapters. We currently hold leadership positions in most major cardiovascular societies and editorial positions in many major cardiovascular journals. We continue to receive consistently increasing extramural funding. Our research staff has also expand to meet the demands of our growing research operations, which this year has included the opening a new cardiovascular research building which hosts a state-of the art thrombosis research laboratory, patient waiting area, clinical visit rooms, and offices for research staff.

### LISTING OF FACULTY MEMBERS

### Dominick Angiolillo, M.D. Ph.D., Associate Professor

Medical School / Graduation date Internship/residency and year Subspecialty training and year

The Catholic University of the Sacred Heart Medical School, Italy
The Catholic University of the Sacred Heart Medical School, Italy
University Hospital of Salamanca, Spain/The Policlinico
1998
Agostino Gemelli University Hospital, Italy/San Carlos
University Hospital

### Theodore Bass, M.D., Professor and Division Chief

Medical School / Graduation date
Internship/residency and year
Subspecialty training and year
Brown University
Mayo Clinic
Boston University

1976 1979 1981

### Douglas Chapman, M.D., Associate Professor

Medical School / Graduation date	Chicago Medical School	1984
Internship/residency and year	University of Missouri	1987
Subspecialty training and year	Michael Reese Hospital	1990

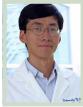

### Sunita Dodani, M.D., M.S., Ph.D., Associate Professor

	2., 7.0000.acc 1 1010000.	
Medical School / Graduation date	The Aga Khan University, Pakistan	1992
Subspecialty training and year	Dalhousie University (M.S.)	2002
Subspecialty training and year	University of Pittsburgh (Ph.D.)	2006

### Luis Guzman, M.D., Associate Professor

Medical School / Graduation date	University of Buenos Aires, Argentina	1982
Internship/residency and year	Churruca-Visca Hospital, Argentina	1986
Subspecialty training and year	Instituto Cardiovascular Buenos Aires, Argentina	1989

### Steve Hsu, M.D., Associate Professor

Medical School / Graduation date	Washington University	1990
Internship/residency and year	Thomas Jefferson University	1993
Subspecialty training and year	Thomas Jefferson University	1997

### Robert Kim, M.D., Assistant Professor

Medical School / Graduation date	Tufts University School of Medicine – Boston, MA	1998
Internship/residency and year	St. Elizabeth's Medical Center – Boston, MA/	2001
	University of MA Medical Center-Worcester, MA	2004
Subspecialty training and year	Dartmouth-Hitchcock Medical Center – Lebanon, NH	2008

### Steven Lavine, M.D., Professor

Medical School / Graduation date	Temple University	1976
Internship/residency and year	Temple University	1979
Subspecialty training and year	Temple University	1981

### Alan Miller, M.D., Professor

Medical School / Graduation date Internship/residency and year	University of Pittsburgh Mount Sinai	1966 1968
Internship/residency and year	George Washington University	1971
Subspecialty training and year	Cleveland Metropolitan Hospital	1973

### Timothy Paterick, M.D., J.D., M.B.A. Professor

Medical School / Graduation date	Rush Medical College of Rush University	1984
Internship/residency and year	Mayo Clinic – Rochester	1987
Subspecialty training and year	Mayo Clinic – Rochester	1990
Professional Education	University of Wisconsin (JD)	1993
Professional Education	Edgewood College (MBA)	1996

### Robert Percy, M.D., Associate Professor

Medical School / Graduation date	University of Mississippi	1973
Internship/residency and year	University of Mississippi	1977
Subspecialty training and year	Joslin Clinic	1979
Subspecialty training and year	Mass General Hospital	1981

### Joel Strom, M.D., M.Eng., Adjunct Professor

Medical School / Graduation date	State University of New York Upstate Medical University	1970
Internship/residency and year	State University of New York Upstate Medical Center	1973
Subspecialty training and year	Cornell University Medical College	1974
Subspecialty training and year	Albert Einstein College of Medicine	1977

### Gladys Velarde, M.D., Associate Professor

Medical School / Graduation date	New York University School of Medicine	1992
Internship/residency and year	Columbia Presbyterian Medical Center	1995
Subspecialty training and year	Boston University/Mount Sinai Hospital	1998

### Thomas Wannenburg, M.D., Associate Professor

Medical School / Graduation date University of Stellenbosch, South Africa	1982
Internship/residency and year John Hopkins Bayview Medical Center	1991
Subspecialty training and year Cardiovascular Disease, Wake Forest University	1994
Subspecialty training and year Cardiac Electrophysiology, Wake Forest University	2001

### Martin Zenni, M.D., Associate Professor

Medical School / Graduation date	University of Chicago	1986
Internship/residency and year	Tufts University	1989
Subspecialty training and year	Harvard Medical School	1992

### **CLINICAL ACTIVITIES**

Outpatient Activity	AY 14/15
Physician clinic visits	14,189
Cardiac ultrasounds	10,474
Cardiac nuclear studies	1,441
EKGs	59,439
Stress tests	2,254
Heart caths	2,434
EP procedures	1,159
Cardiac rehab visits	2,237
TAVR	16
*Attendings Only: Jacksonville Clinic=7959,	Lake Shore=1536, Emerson=1171, St Marys =2991,
Northside = 532	

### **CONTRACTS AND GRANTS**

Principal Investigator	Study Title	Project Period	Sponsor	Award Amount
Angiolillo, D	Eval of Switching from Prasugrel to Ticagrelor	2014-2016	IIS Grant	\$396,125.00

## DIVISION OF ENDOCRINOLOGY, DIABETES AND METABOLISM ACADEMIC YEAR 2015 (7/14 - 6/15)

### **Highlights**

The Division of Endocrinology, Diabetes and Metabolism had a year of sustained change and development in all areas of the academic mission of the University of Florida. Clinically, major events included expansion of clinical services geographically and provision to a broader audience. The endocrinology faculty initiated in-vitro and clinical investigations into hormonal action with acquisitions of new faculty and personnel. Academically, the Division submitted multiple manuscripts, delivered multiple scholarly presentations and contributed to the University's educational mission.

Patient care: The division provided inpatient and outpatient consultation at the University of Florida College of Medicine-Jacksonville campus and Emerson Medical Plaza to faculty of the University and referring physicians in the northeast Florida/southern Georgia region and beyond. With the opening of the UF Northside campus endocrinology services extended to a broader area of the First Coast. The core clinical faculty of the Division included Dr. Joe Chehade, Dr. Claudia Gragnoli, Dr. Arshag Mooradian, Dr. Mae Sheikh-Ali, and Dr. Kent Wehmeier. The division addressed clinical endocrinology problems related to hypothalamus, pituitary, thyroid, pancreas, adrenal and sex hormone gland dysfunction. Patients with metabolic disorders including diabetes mellitus, metabolic syndrome, obesity, anorexia, hypercholesterolemia, calcium and metabolic bone diseases such as osteoporosis and vitamin D deficiency were evaluated and treated. The division's main clinical operations occurred at UF Endocrinology and Diabetes at Emerson Medical Plaza. The number and variety of consultations continued to rise. Patients were also evaluated at the UF Health-Jacksonville Ambulatory Care Center (ACC). Dr. Chehade, Dr. Gragnoli, Dr. Sheikh-Ali and Dr. Wehmeier performed analyses of the glucose monitoring data, obtained by continuous glucose monitoring to make recommendations regarding diabetes management. Diabetes care has matured with the partnering of outpatient diabetes education with the Division of Endocrinology. Meredith Smith, MS, RD, LD, provides onsite education at the UF Emerson location for diabetes management, carbohydrate counting and medical nutrition therapy (MNT.) Dr. Chehade and Dr. Sheikh-Ali both utilized ultrasound guidance for the evaluation of patients with thyroid nodules, and thyroid cancer to provide comprehensive care to patients with thyroid disease.

A unique collaboration with the UF College of Medicine-Jacksonville's Department of Surgery, Radiology and Pathology has enhanced the care of patients with thyroid and parathyroid disease. Through the discussion and implementation of diagnostic and treatment protocols, the care of these patients has been standardized to better evaluate outcomes and focus on patients with more challenging management issues. A second collaboration continued with the Departments of Neurosurgery, Otolaryngology, Pathology, Radiation Oncology, and Radiology. Both collaborations were coordinated through Dr. Sheikh-Ali.

The dynamic testing clinic at UF Endocrinology and Diabetes at Emerson Medical Plaza has enhanced the evaluation of adrenal and pituitary disease.

On the inpatient service, more patients were served by endocrinology consultation. The division also presented evaluation and management techniques in the areas of diabetes, thyroid disease and osteoporosis to UF Family Practice clinics to facilitate optimal care of patients with these conditions.

Leading the charge for better inpatient diabetes care the division participated in the Diabetes Steering Committee. This multidisciplinary body comes together to discuss common issues in glucose control. Strategies to improve outcomes are discussed and implemented.

**Education:** The Endocrinology Fellowship continues to maintain its ACGME accreditation, under the direction of Program Director, Dr. Kent Wehmeier and Associate Program Director, Dr. Mae Sheikh-Ali. Fellows Dr. Harshit Shah, from Loma Linda, and Dr. William Kurban, from Louisiana State University, joined

the Division in July 2013 and completed their fellowship. Dr. Ayham Chamseddin and Dr. Monica Plazarte began July1, 2014 and have been an exceptional and productive additions to the division. All four fellows have made substantive contributions to the clinical care, education and research mission of the division. In resident physician education, Dr. Wehmeier continued as rotation director of relevant educational programs for Endocrinology. He is the primary liaison between the Core Residency Program and the Division, and is a member of the Resident Education Committee. The faculty members and fellows participate in teaching rounds in the clinic and in conferences to enhance the experience of the rotating residents.

In the educational program of University of Florida, Dr. Chehade, Dr. Sheikh-Ali and Dr. Wehmeier are in preceptor clinics in Endocrinology and coordinate lectures for the University of Florida medical students and residents in medicine and emergency medicine. The division's Endocrinology Grand Rounds provide an avenue for speakers at UF Jacksonville and Gainesville to share knowledge and enhance collaboration between various disciplines at UF. Dr. Wehmeier completed the Medical Education Research Certification sponsored by the Association of American Medical Colleges.

**Research:** Strides have been made in making clinical research more attractive to industry and to potential subjects. Under the guidance of division members, the awards and numbers of subjects have continued to grow. Additional research staff has been added to grow the division's efforts. The basic science research lab continues to be a place of learning and scholarly activity. Investigations regarding the effects of multiple hormones on the expression of the most important protein in the high density lipoprotein (HDL) particle, Apo AI, and the involvement of endoplasmic reticulum (ER) stress and oxidative stress in coronary artery disease continue to reveal critical insights. The division made a strong showing at the University of Florida College of Medicine-Jacksonville Research Day. All four fellows had poster presentations displaying their research at national meetings, including the American Association of Clinical Endocrinology and the Endocrine Society. Four investigator-initiated clinical trials are also in the process of studying topics in thyroid disease and macronutrient metabolism.

**Philanthropy:** The Division members have been the recipients of many gifts. In the spirit of giving back, the members have contributed of their time, effort and resources to the underserved and to children in Jacksonville, as well as overseas.

### LISTING OF FACULTY MEMBERS

### Joe Chehade, M.D., Associate Professor

Medical School / Graduation date	St. Joseph University School of Medicine, Beirut-Lebanon	1992
Internship/residency and year	Staten Island University Hospital	1997
Subspecialty training and year	Saint Louis University School of Medicine	1997

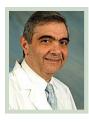

### Claudia Gragnoli, M.D., Ph.D., Associate Professor

Graduate School/Graduation date	U. La Sapienza of Rome, Italy	1992
Internship/residency and year	U. La Sapienza of Rome, Italy	1998
Internship/residency and year	U. La Sapienza of Rome, Italy	2003

### Michael Haas, Ph.D., Research Associate Professor

Graduate School/Graduation date	University of Nebraska Medical Center	1991
Post-Graduate Training and year	McArdle Laboratory for Cancer Research	1994

### Arshag D. Mooradian, M.D., Professor and Chairman, Department of Medicine

Medical School / Graduation date	American University of Beirut	1980
Internship/residency and year	American University of Beirut	1982
Subspecialty training and year	University of Minnesota	1985

### Mae Sheikh-Ali, M.D., Associate Professor

Medical School / Graduation date	Damascus University School Medicine	1999
Internship/residency and year	Drexel University College Of Medicine	2005
Subspecialty training and year	Mayo Clinic, Jacksonville, Florida	2007

### Kent Wehmeier, M.D., Associate Professor and Division Chief

Medical School / Graduation date	University of Missouri-Columbia	1988
Internship/residency and year	Barnes-Jewish Hospital, Washington University	1991
Subspecialty training and year	Saint Louis University School of Medicine	1993

### DIVISION OF GASTROENTEROLOGY ACADEMIC YEAR 2015 (7/14 - 6/15)

### **Highlights**

The Division of Gastroenterology had an outstanding 2014-2015 fiscal year. Clinically, the division has significantly reduced patient wait list times at both campuses. The patient no show rate has also significantly improved at both the Emerson and UF Health Multispecialty Beach Clinic which is currently less than 9%. Patient satisfactions surveys continue to improve in all GI clinics. A direct referral system with using a one phone call system has been very successful this past year in scheduling endoscopic procedures and patient consults. Patients are now being accommodated for their screening colonoscopies the same week. A direct referral system for primary care physicians has been in place for the past year and has been very successful thanks to the good work of our GI office manager, Kimmie Holcomb. The IBD and Hepatology clinics have been reorganized to optimize patient care and enhance the trainees' education. The fellowship curriculum has been restructured to provide competency based training and progression of a fellow's responsibility based on master of these competencies. The fellowship program was fortunate to recruit its top candidates during this year's match and looks forward to another successful year. Our fellows and faculty continue to publish and present their research and QI studies at regional and national meetings.

**Patient Care:** The patient care aspect of our academic mission is pursued at the following locations: UF Health North, inpatient consult service at UF Health Hospital; weekly IBD and hepatology clinics at the Emerson campus; endoscopy services at UF Health Hospital, Jacksonville Beach Surgery Center, Jacksonville Surgery Center and Baptist Beaches Surgical Center; general GI clinics at UF Health North, UF Health at 8<sup>th</sup> Street, Emerson and UF Beach campuses. In addition to routine endoscopic procedures, the following procedures are provided for our patients: Endoscopic Ultrasound (EUS), Endoscopic Retrograde Cholagiopancreatogram (ERCP), high resolution esophageal manometry, BRAVO ph testing, capsule endoscopy, single balloon enteroscopy, hemorrhoid banding, infusion therapy with biologics for IBD patients and treatment and counseling for patients with viral hepatitis is also available. Our mission is to continue to improve patient access and overall quality of care and patient safety. Specific attention will focus on reduced patient wait times and continued improvement of patient no show rates.

**Education:** Our six key faculty members, as defined by the ACGME, include Dr. Emely Eid, Dr. Silvio deMelo, Dr. Amie Deutch, Dr. Juan Munoz, Dr. James Scolapio and Dr. Paul Sievert. The division has a total of 6 fellows and the program has been successful in maintaining a 100% first time pass rate on the GI boards over the past 10 years. The program has consistently matched with top candidates. All fellows have participated and completed quality improvement and research projects. Many of our fellows have been selected for research awards and presented their research at both state and national meetings. The goals of the program remains enhanced competency-based training with progression of a fellow's clinical responsibility based on mastering of specific core competencies or milestones. Specific attention will also continue to focus on the core competency of professionalism.

**Research:** Faculty members have been productive in scholarly activities over the past year. They have given multiple scientific presentations at local, regional and national meetings. Our faculty continues to mentor fellows in their research and QI studies. The division has published papers on a wide range of topics including Barrett's esophagus, IBD, liver diseases, pancreas diseases, and nutrition. The mission of the program remains increasing the number and quality of extramurally funded studies with specific attention on mentoring our GI fellows on prospective hypothesis driven clinical studies.

#### **LISTING OF FACULTY MEMBERS**

#### **Robert Bass, M.D., Assistant Professor**

Medical School / Graduation date	Medical College of Georgia	1988
Internship/residency and year	University of South Alabama	1991
Subspecialty training and year	University of Florida – Jacksonville	1993

#### DIVISION OF GENERAL INTERNAL MEDICINE ACADEMIC YEAR 2015 (7/14 - 6/15)

#### **Highlights**

The division continues a robust inpatient and outpatient practice and is an integral part of the educational experience for the Internal Medicine residency.

Patient Care: The Division of General Internal Medicine is comprised of 16 members, including the two chief medical residents. All full time faculty are certified by the American Board of Internal Medicine. The clinical care provided by members of the division include the provision of inpatient care as the attendings for the four inpatient teaching services, outpatient care at two locations: the Ambulatory Care Center at UF Health Jacksonville and the UF Internal Medicine Clinic at Emerson, an inpatient Internal Medicine consultation service and medical evaluation of patients admitted to the inpatient Psychiatry service. The division has a busy outpatient practice and based on patient satisfaction, the physicians in the group are considered excellent clinicians. In addition to the excellent physicians in the group, the outpatient primary care practices recently received notification that they had been granted NCQA Level 3 certification as a Patient Centered Medical Home. JaxHATS (Jacksonville Health and Transition Services) clinics held on Monday afternoons and Tuesday and Thursday mornings continue to serve as a model primary care home for emerging adults with chronic illness and special healthcare needs. Dr. Linda Edwards, in conjunction with Dr. David Wood, a general pediatrician, established this clinic for adolescents and young adults who are transitioning from their pediatricians to adult providers in 2005. The PAIDD (Program for Adults with Intellectual and Developmental Disability) clinic continues to grow and provide primary care services and care coordination to this adult special needs population. The clinic and care coordination of these patients is supported by a grant from the Riverside Foundation. Our geriatrician, Dr. Hsiao-Yen Kuo, has developed a growing geriatric outpatient practice, seeing patients at our Emerson site and continues to provide care to patients admitted to one of our local nursing homes.

**Education:** The division provides faculty supervision of residents on the four general internal medicine inpatient teaching services, the inpatient medicine consultation service and geriatrics, as well as faculty supervision and mentoring of all categorical medicine residents in their outpatient continuity practice and urgent care clinics.

Dr. Jeff House serves as Program Director for the Internal Medicine Residency Program and Dr. Palacio is one of the Associate Program Directors for the training program. He is focusing his efforts in the ambulatory care arena and quality improvement initiatives with the residents in their outpatient practice. Dr. Landa serves as the Clerkship Director for medical students from Gainesville who rotate on the Internal Medicine service (inpatient and outpatient). Drs. Landa, Reddy and Palacio served as core faculty for the residency training program in Internal Medicine and are members of the Clinical Competency Committee (previously the Resident Education Committee).

Drs. Masri and Sottile serve as peer reviewers for the University of Florida College of Medicine-Jacksonville faculty development program. Dr. Sottile also serves as a facilitator and is the co-developer of the "Teaching Residents to Teach"-a 6-8 hour intradepartmental seminar offered each year at the University of Florida College of Medicine-Jacksonville to residents and subspecialty residents.

All members of the division participate in morning report and have presented at the noon conference core curriculum series held daily, as well as the Friday afternoon Board review.

The division serves as an integral part of the education program for 3<sup>rd</sup> and 4<sup>th</sup> year medical students from the University of Florida. Members of the division serve as preceptors for students in both the inpatient setting as well as in our outpatient practice. Student evaluations of their experience are excellent and are reflected

Annual Report AY 2015 39 General Internal Medicine

in the number of exemplary teacher awards given to faculty within the division.

**Quality:** Dr. Jeff House coordinates monthly M&M/QA and QI for the training program. He also serves as the Quality Officer for the Department of Medicine. He is the Chair of the Medical Performance Improvement Committee (MPIC) and is a member of the Performance Improvement Committee-the institutional body that oversees quality and safety for the UF Health Jacksonville campus. The Division of GIM strives to meet HEDIS measures and meaningful use criteria. The division is working with the hospital quality team to review and assess our readmission rates, timeliness of discharges and through put, as well as identify opportunities to continue to improve our patient satisfaction. In the outpatient setting, Dr. Palacio coordinates a number of quality improvement projects with the residents to look at access, show rates and whether preventive care and screening guidelines are being met.

**Research:** Research in the division varies among the faculty. Many of the faculty have mentored residents in their research projects and have assisted them in submitting and being awarded grants from the Dean's Fund for Research. The division continues to be productive as demonstrated by the publications list below.

**Future Directions:** Development of registries through EPIC will assist the division in meeting the needs of our patients and allow us to provide better care to them. To meet the primary care needs of Jacksonville, we will be expanding our practice to the north side. We also plan to expand the nursing home network of our division to provide additional training opportunities for our residents and students, as well as facilitate the care of our patients. The clinic for adults with intellectual and developmental disabilities continues to grow and provides a unique service to this special needs population.

The division will have the opportunity to develop performance improvement initiatives that will lead to improved patient care and safety and result in the preparation of scholarly works. Faculty and resident involvement in these initiatives will be critical.

# DIVISION OF HEMATOLOGY & MEDICAL ONCOLOGY ACADEMIC YEAR 2015 (7/14 – 6/15)

#### **Highlights**

The Division of Hematology and Medical Oncology continues to grow in its clinical and academic mission of the University of Florida with the addition of Dr. Louise Zhou who joined the Division in December 2014. The division consists of two board certified medical oncologist and two dual boarded in Hematology and Medical Oncology. The division provides inpatient clinical consultation in hematology and medical oncology and maintains an ACGME accredited Oncology Fellowship Training Program. The division actively participates in training internal medicine residents, medical students, pharmacy, and nursing in outpatient and inpatient settings.

**Patient care**: The Division provides patient care at the UF Health Jacksonville campus, CB McIntosh Center, and Emerson Medical Plaza. Our core faculty members of the division include Dr. Fauzia Rana, Dr. Dat Pham, Dr. Lara Zuberi, and Dr. Louise Zhou. The division continues to work closely with Radiation Oncology, Surgical Oncology and Central Administration of UF Health Jacksonville, providing multimodality care for oncology patients. All faculty members work closely with the Proton Therapy Institute in collaboration of patient care, improving patient access and overall quality of care on the inpatient service and in the outpatient clinical setting. The division also participates in simulation lab workshops, teaching the Medical Oncology Fellow's "How to break the bad news". The fellows are also trained on how to perform bone marrow biopsy procedures.

Dr. Rana volunteers at the We Care Clinic where she sees patients and provides free service to underserved patients. Dr. Zuberi participated at the Public Forum on "What Everyone Should Know about Breast Health". The Oncology division hosted a PNH Program presented by invited speaker, Ilan Shapira, M.D., Director of Clinical Oncology at Beth Israel Medical Center. Our division continues to host the Oncology Pharma Expo quarterly. This program has been very successful in boosting faculty and staff moral and building better relationships with industry without disruption in clinical activity.

Each member of the division has a strong role in division activities. Dr. Rana, Division Chief and Associate Fellowship Program Director, continues to provide care and leadership as Director of the Adult Sickle Cell Program and serves as key clinical faculty for the Department of Medicine Internal Medicine Residency Program. She also serves on the Community Hospice Advisory Board as a member. Drs. Rana and Zuberi serve as an important component in the Multidisciplinary Breast Program. Dr. Pham, Fellowship Program Director, works closely with the education of the fellows and continues his efforts in the Multidisciplinary Thoracic Oncology Program. Dr. Louise Zhou is key clinical faculty for the UF Health Jacksonville Cancer Committee and Transfusion Committee and continues her efforts with the Multispecialty GI Cancer Program. All providers in the division work very closely with UF Proton Therapy Institute and the Department of Surgery. Dr. Louise Zhou is the Hematology and Medical Oncology champion for the Head and Neck Multidisciplinary program with ENT and Radiation Oncology at UF Health Jacksonville.

**Education:** The Medical Oncology Fellowship, under the direction of Program Director, Dr. Dat Pham, has remained strong and matched top candidates with 100% ABIM subspecialty board pass rate, with one position filled for July 2015. The Medical Oncology Fellowship program successfully continues to maintain its ACGME accreditation.

Our division works closely with the GME office at University of Florida College of Medicine-Jacksonville, playing an active role in the educational core lecture series including Grand Rounds and Oncology Didactic Lecture Series. The physicians provide mentoring and teaching to the residents interested in our specialty. Faculty supervise medical oncology fellows in their outpatient continuity clinics and provide supervision during all bone marrow procedures.

The division continues to support the Internal Medicine Residency Program through facilitation of Night Float Rotation, Medicine Resident's Noon Conference and Grand Rounds. The division offers a consult experience in hematology and oncology to residents at all training levels. The Oncology Fellowship has rotations at Mayo Clinic Jacksonville (Bone Marrow Transplant) and Baptist Medical Center with Dr. Troy Guthrie. Medical Oncology fellows have opportunities to contribute at weekly didactic lecture series. Our monthly Journal Club generates discussion on various topics and keeps us up to date on the latest advances in hematology and oncology. Our fellows have submitted peer review manuscripts, several of which were accepted for publication. Dr. Rana serves as key clinical faculty for Internal Medicine and is a member of the Resident Education Committee. Our quarterly Pharma Fair has been successful this year, which provides additional educational materials and latest cancer treatment guidelines.

Dr. Rana was chosen from our department to receive the 2014 University of Florida-College of Medicine's Exemplary Teachers Award. This award is given in recognition of outstanding teaching contributions of individual faculty member.

**Research:** The division is currently conducting three clinical trials. All faculty actively participate in the UF Proton Therapy research trials. Research in the division varies among the faculty. We have collaborated with Mayo and have been grandfathered into the ALLIANCE cooperate group, as an affiliate site, which merged ACOSOG, CALGB, and NCCTG.

The division produced two monographs, one publication, one abstract, and 11 presentations during the academic year.

#### DIVISION OF INFECTIOUS DISEASES ACADEMIC YEAR 2015 (7/14 - 6/15)

#### **Highlights**

The Division of Infectious Diseases continued its clinical and academic missions during this past year. The division is comprised of three university based infectious diseases consultants, all of whom are dually boarded in Internal Medicine and Infectious Diseases, with an additional 11 ancillary faculty composed of board certified infectious diseases physicians, doctoral level microbiologists and doctoral level pharmacists who are actively involved in various aspects of the fellowship training program.

The division provided inpatient clinical consultation in Infectious Diseases at the UF Health Hospital/Jacksonville; Hospital Infection Control and Antimicrobial Stewardship direction at UF Health Hospital, outpatient travel and tropical medicine services, outpatient infectious diseases consultation and clinical infectious diseases research. The division maintained an ACGME accredited Infectious Diseases fellowship training program and actively participated in the training of internal medicine residents and medical students in inpatient and outpatient infectious diseases.

Members of the division also assumed administrative and teaching roles in ID division and IM activities. Dr. Sands is the university ID Division Chief and ID Fellowship Program Director. Dr. Guzman is the Chair of Hospital Infection Control and Antimicrobial Stewardship Programs for UF Health Hospital, the ID F ellowship Associate Program Director and the Associate Program Director for the Core Internal Medicine Residency. Dr. Mercado oversaw fellows' research initiatives and is actively involved in Internal Medicine resident teaching and impaired adolescents' clinics.

#### Patient care:

<u>University ID Division inpatient and hospital based activity:</u> The division provided full time inpatient infectious diseases consultation throughout the UF Health Jacksonville Hospital system. During the 2014-2015 academic year, the division performed 832 inpatient infectious diseases consultations with over 4340 subsequent follow-up visits at UF Health Hospital.

<u>Outpatient services:</u> The division offered outpatient ID consultation by referral at the Emerson and the Ambulatory Care Clinic (ACC) subspecialty clinics. During the 2014-2015 academic year, there were over 1167 outpatient ID consultative visits for HIV/AIDS and general Infectious Diseases diagnoses including chronic osteomyelitis and MRSA infection.

Travel medicine services were provided three times per week for overseas travelers at the Faculty Clinic. Over 400 travel patients were seen during the academic year.

#### **Education:**

<u>Grand Rounds:</u> The division actively participates in presenting at Medical Grand Rounds and as regular attendees. This academic year faculty gave presentations at four UF Grand Rounds and two topical lectures at the Internal Medicine Annual Update.

<u>Fellowship Training:</u> The division maintained an ACGME accredited fellowship in Infectious Diseases with one fellow for each of the two clinical fellowship years. The fellowship program has been re-accredited on a five year cycle. The fellowship training is unique in offering two months of clinical microbiology, dedicated research time, two months of training in solid organ transplantation ID at the Mayo Clinic, one month training in Pediatric Infectious Diseases at Wolfson Children's' Hospital and one month as a junior ID faculty consultant in the UF Health MICU, in addition to 15 months experience as the consultant and teaching fellow on the general ID in-patient consult service at UF Health.

1991

1999

2001

Our Infectious Diseases fellows continue to distinguish themselves through maintaining a 100% ID boards pass rate and achieving successful employment as full time Infectious Diseases consultants in a variety of metropolitan areas, including San Francisco, Atlanta, Baton Rouge, Tampa, Orlando and here in Jacksonville.

<u>Resident Training:</u> Faculty provided a 12 lecture series ID core curriculum conference for the residents; ID consultation teaching and clinical rounds; outpatient HIV/AIDS continuity clinics; and resident ID board review sessions.

<u>Medical Student Education:</u> Medical students from UF Gainesville, other US sites and internationally, rotate on the infectious diseases consultative service and the outpatient ID clinics at both the ACC and Emerson campuses.

<u>ID Division Conference Schedule:</u> The division maintained a full conferencing schedule with topics including: core infectious diseases topics, regularly scheduled case conferences; ID board reviews; monthly journal club; HIV topical reviews; monthly TB cases and topical reviews; monthly research conferences; travel and tropical medicine conferences; transplantation ID conferences; and monthly Med/Peds ID joint conferences.

<u>Cooperative extramural resident and fellows' training</u>: As part of their curricula, Mayo Clinic ID fellows, UF Intensivist fellows, UF Pediatric ID fellows and UF Podiatric-Orthopedic residents rotated on the UF ID inpatient consultative service and in the HIV outpatient clinics.

<u>Research</u>: Dr. Sands was the principal investigator on two NIH sponsored research grants through the INSITE network; an observational study of pandemic influenza H1N1 complications and the START study (Strategic Timing of Anti-Retroviral Therapy study) to define the appropriate time to initiate antiviral therapy for HIV-infected patients.

Publications and presentations this past academic year included four abstracts presented at UF Research Day, five published ID monographs and 17 journal articles published in peer reviewed journals.

## **CLINICAL ACTIVITIES**

	AY14/15
Inpatient activity	
Consults	832
Outpatient activity	
Clinic Visits	1167

#### **GRANTS AND CONTRACTS**

Principal Investigator	Study Title	Project Period	Sponsor
Sands, M.	START – Strategic timing of antiretroviral therapy – A multi-national study. NIH – INSITE network	12/1/10- 5/31/15	INSIGHT - NIH
Guzman, N.	An international, multicenter prospective observational study of the safety of Maraviroc used with optimized background therapy in treatment experienced HIV-1 infected patients	10/23/08- 10/6/15	ViiV Healthcare (formerly Pfizer)

#### DIVISION OF NEPHROLOGY AND HYPERTENSION ACADEMIC YEAR 2015 (7/14 - 6/15)

#### **Highlights**

In the 2014 – 2015 academic year, the Division of Nephrology and Hypertension continued to make headway in meeting the goals of the academic mission.

In patient care, the offsite dialysis venture with DCI at the Gateway Unit has continued to expand the hemodialysis and peritoneal dialysis patient populations and services at that site. In education, the Nephrology fellowship proceeded to thrive with continuation of Simulation Training, the Pediatric Nephrology experience, and off-site Renal Transplant rotations. Dr. Leighton James continued to provide direction for the fellows' Renal Physiology Course. The joint Renal Pathology conference with Mayo Clinic Jacksonville continued as a successful and important piece of the educational program, as did the Transplant Rotation at Mayo Clinic Jacksonville. In addition, our annual Update in Nephrology & Hypertension CME Symposium was once again a success in 2015, with grant support from Dialysis Clinics Inc. and visiting professors from the University of Miami VAMC and Georgia Regents University. The division ARNP's continued their excellent care for our outpatient hemodialysis population. In addition, plans are underway for a Renal Clinic to begin at UF North in 2015.

Dr. James presented his growth factor research work on diabetic nephropathy at the American Society of Nephrology meeting. Dr. Ashwani Gupta, with a clinical research interest in dialysis, continued his roles in four clinical research trials, with topics including treatment of membranous glomerulonephritis, the P-DOPPS Study, the CARA Study and modeling of anemia management in hemodialysis patients. The laboratory of Dr. Charles Heilig continued with funded basic research studies into the pathogenesis of diabetic and nondiabetic glomerulosclerosis in mice, with a focus on the roles of Mechano-Growth Factor (MGF) and glucose transporters. Dr. Yongxin Gao, Assistant Scientist in the Nephrology Research Laboratories, continued her collaborative research work on MGF, glucose transporters and other growth factors in kidney disease. The Nephrology Research Laboratory also joined the recently formed University of Florida Diabetes Institute to contribute Type 2 diabetes research to the mission.

Fellows and faculty attended and participated in meetings of the American Society of Nephrology, the National Kidney Foundation, a national Home Dialysis Educational Seminar, the Update in Nephrology & Hypertension 2015 symposium and the UFCOM-J Research Day Symposium.

Patient care: The Division of Nephrology provides physician services and the medical director for two outpatient dialysis units and provides services to the inpatient UF Health acute hemodialysis unit. The newer Gateway Dialysis Unit in Jacksonville continues to grow with both hemodialysis and peritoneal dialysis services at that site. The Gateway Dialysis Unit has 24 hemodialysis chairs and approximately 80 patients. The total chronic dialysis population cared for by UFCOM-J Nephrologists has reached approximately 290 patients, hemodialysis and peritoneal dialysis patients included. Dr. Ashwani Gupta has nephrology clinics at Emerson Medical Plaza and is planned to attend at the upcoming UF North Renal Clinic. Additional faculty clinics are staffed at the Towers Clinic on campus by the Nephrology faculty members. The Nephrology clinics at the UF Health campus include the Nephrology Faculty Clinics, the Anemia Clinic, the Post-Renal Transplant Clinic, the Fellows' Continuity Clinics, the Correctional Facility Clinic, the HD Outpatient Center, the PD Clinic, and fellow participation in an associated Vascular Access Clinic located in the Department of Surgery. The inpatient Nephrology Consult Service continued with a high level of activity and a daily census of approximately 25-45 patients. This service was split into two separate services: Acute Renal Disease & Transplant Consults, and the Chronic Dialysis Consults. These services continue to provide important educational platforms for fellows, medical residents & students. Dr. Gupta continued as Medical Director of Dialysis Services, and has worked to continuously improve the dialysis services. Dr. Ronald Mars continued in his position as Quality Officer for the division.

The division successfully worked with the Department of Surgery to improve placement of permanent vascular access for patients preparing for hemodialysis, and improvements have been recognized toward goals of the Fistula First Program. The Post-Renal Transplant Clinic continued to serve as another platform for education of the fellows and care of patients previously transplanted at this program.

**Education:** Dr. Leighton James, Associate Professor of Medicine and Assistant Program Director from 2011–2013 initiated the fellows' Renal Physiology Course in 2010, which continues as an important addition to the nephrology educational experience. The joint Renal Pathology conference with UF Jacksonville and Mayo Jacksonville is teleconferenced with Mayo Rochester and has continued to be an important educational component for the Nephrology Fellowship program. The Update in Nephrology & Hypertension 2015 CME Symposium provided by the division was well attended and well received. This is an important educational venue for fellows and faculty alike. The division plans another course in the spring of 2016. Visiting professors Dr. Leopoldo Raij, Dr. Stanley Nahman and Dr. Ronald Falk provided special lectures in renal physiology, molecular biology and glomerulonephritis during the academic year, which complemented the fellows' educational program. The Nephrology faculty continue to participate in educational programs for the Medicine residents, including the Night Float Rotation, Medicine Residents' Noon Conference, Nephrology Clinics & the Nephrology Consult Rotation. The Mayo Clinic Jacksonville Renal Transplant Rotation for UF-Jacksonville Nephrology fellows continued successfully and complements the Nephrology training program at UF Health. The ACGME-required milestones have been incorporated into the fellowship training program and rotation evaluations.

**Research:** The topics of research studies in the division spanned from anemia management in dialysis patients, dialysis catheter studies, and peritoneal dialysis practices & outcomes, to glucose transporter & growth factor roles in diabetic renal disease, nondiabetic glomerular disease and renal transplant rejection.

Dr. Heilig's laboratory focuses on glucose transporter regulation of glomerulosclerosis, and more recently on a potential role for Mechano-Growth Factor (MGF) in both diabetic and nondiabetic kidney disease. This laboratory continues to be funded by DCI, Inc. Dr. James' laboratory focuses on growth factors in the pathogenesis of diabetic nephropathy. Dr. Gupta's research primarily focuses on research in anemia management of ESRD, dialysis access hemodynamics, PD practice patterns, and anti-complement therapy in renal disease. Dr. Mars' research focuses on the efficacy of different brands/types of hemodialysis catheters in the outpatient setting.

The Nephrology fellows participated in various different research studies & scholarly activities as part of their research training. Fellows also attended and participated in research activities at the American Society of Nephrology Meeting, and the National Kidney Foundation Meeting. The Nephrology Division produced 3 publications, and 16 abstracts and presentations. There were also two active grants this year (Research & Education grants).

#### **Special Initiatives:**

<u>Nephrology & Hypertension Annual Update, Jacksonville, FL:</u> This year's meeting organized by the UFCOM-Jacksonville Division of Nephrology was held at the Hyatt Regency Hotel in Jacksonville with strong attendance by local healthcare professionals, and was well received. This yearly meeting provides education and CME credits for doctors, nurses and others involved in the care of patients with renal disease.

<u>Nephrology Fellows' QI Project in Dialysis:</u> Dr. Gupta directs this important activity which helps to fulfill the ACGME – required competency requirements.

<u>Nephrology Fellows' Patient Safety Project:</u> This Fistula-First Project includes, but is not limited to, fellow tracking of AV-fistula placement and outcomes from the time of referral to dialysis initiation and beyond. Goals include optimizing AVF function for initiation of dialysis and reduction of vascular access complications once dialysis has begun.

<u>Simulation Laboratory Experience:</u> The Nephrology fellows received Institutional Patient Safety Training in the Simulation Laboratory. They also participated in the yearly simulation laboratory experience for temporary hemodialysis catheter placement.

<u>Fistula First Initiative:</u> Faculty and fellows continue to participate in this QI and patient safety initiative, aimed at improving patient outcomes on hemodialysis.

#### DIVISION OF PULMONARY, CRITICAL CARE AND SLEEP MEDICINE ACADEMIC YEAR 2015 (7/14 - 6/15)

#### **Highlights**

The Division of Pulmonary, Critical Care and Sleep Medicine has had continued growth after addition of Dr. Mariam Louis who joined the Division in November 2013. The fellowship training program continues to be popular with over 300 applications for the two available positions per year. Clinically, we have had continued growth with initiation of Pulmonary Disease clinic at UF North. Academically, the division continues to be productive in the areas of clinical and original research and publications. The faculty was involved as moderators for various sessions in Society of Critical Care Medicine, Pulmonary Hypertension Association and ATS conferences. The fellows, under the mentorship of faculty, are engaged in a number of clinical studies. The division has had a number of abstracts presented in national and international conferences and was represented in various regional meetings in the form of providing educational lectures.

**Patient care:** The division faculty staffs a number of specialized and general pulmonary clinics. The Asthma Clinic, under the supervision of Dr. Cury, continues to be a part of the American Lung Association Asthma Clinical Research Network and now is involved in industry funded clinical research in this arena. The division continues to be involved with the Pulmonary Rehabilitation program in conjunction with the Department of Physical Therapy.

Pulmonary Hypertension Clinic continues to be a regionally known referral center with patients being referred from regions all over the east coast. As member of the Pulmonary Hypertension Association, it is set to become a center of comprehensive care. The clinic currently manages over 200 pulmonary hypertension patients. Performing right heart catheterizations in the bronchoscopy suite has led to excellent patient through put. The program is preparing to undergo certification as a Center of Comprehensive Care (CCC) under Pulmonary Hypertension Association (PHA).

Janice Wood, RRT continues to be the Pulmonary Hypertension and ILD Program Coordinator.

Under Dr. Jones' supervision, the Interstitial Lung Disease and Sarcoidosis clinic continues to expand and is involved in clinical trials in the area of IPF.

The fellows' continuity clinic is staffed by at least 5 fellows once a week and supervised by faculty. The number of pulmonary function tests performed has also accordingly increased.

Thoracic Oncology Clinic continues its multidisciplinary approach to patients with thoracic malignancy. The division successfully initiated the lung cancer screening program. The already extensive interventional pulmonary program acquired a radial ultra sound probe for peripheral lung lesions.

The division, under the leadership of Dr. Jones, is continuing its successful initiative for implementation of sepsis recognition and management protocol.

The inpatient pulmonary consult service continues to be busy and with the continued evolution of the bronchoscopy suite and the number, efficiency and timeliness of bronchoscopic procedures offered by the division were enhanced.

**Education:** At a regional level, the division gained recognition with leadership roles in South East Thoracic Association affiliated with American Lung Association. The organization conducts state of the art educational conference twice per year (The Pulmonary Winter Course and the Tri-State Conference) which is well attended by participants from the region of Florida, Georgia and South Carolina.

The division continues to play an active role in educational core lecture series including Grand Rounds and Updates in Internal Medicine 2014-2015. The division faculty also has an active role in the educational lectures for a variety of residency programs including emergency medicine, obstetrics, internal medicine and trauma critical care. Drs. Cury, Bajwa and Seeram were honored with the Exemplary Teacher Award. The pulmonary and critical care fellowship program, under the direction of Dr. Cury as Program Director, has been doing extremely well. The board pass rate is 100%. Dr. Shujaat continues to be the Associate Program Director and, along with Dr. Cury, is responsible for coordinating the educational activities for the fellowship. The fellows are regularly mentored by a faculty member in preparation and presentation of lectures.

The division was involved in various regional/national meetings with faculty representing the University of Florida College of Medicine-Jacksonville by providing educational lectures in various topics of interest.

The faculty continues to mentor and supervise family medicine residents from the Navy residency program during their rotation in medical intensive care unit and have always received very positive feedback from the leadership of that program. In addition, we have been active in training nurse practitioners and physician assistants not only from the University of Florida sponsored training programs but also for the nurse practitioners.

**Research**: The division has been very successful in obtaining and continuing its clinical research trials along with funded research. The funded research includes dean's grants, UF clinical quality grant and investigator initiated trials.

The number of internal unfunded clinical research protocols has also increased substantially resulting in quality abstracts being presented at national and international meetings.

A dedicated clinical research coordinator, Minal Patel, has enabled the division to participate in more hospital based clinical research protocols as well.

The faculty has had an increasing number of publications in peer review journals and has a number of manuscripts in preparation. Close collaboration with other departments with common research interests is the key to future protocols and publications.

The focus of the division is to enhance collaboration with other departments and regional centers and continue to strive for excellence in this arena.

Post-Operative Proton Therapy for Resected Non-Small Cell Lung Cancer. Deraniyagala R, Hoppe B, Morris CG, Pham D, D'Agostino H, **Bajwa AA**, Nichols R. American Society for Radiation Oncology (ASTRO). 2015, San Antonio, TX.

Effect of Positive End-Expiratory Pressure (PEEP) on Development of Upper Extremity Deep Venous Thrombosis in Mechanically Ventilated Medical Intensive Care Unit (ICU) Patients. Al-Saffar F, Gupta E, Siddiqi F, Jones LM, Louis M, Seeram V, Cury JD, Bajwa AA, Shujaat A. American Thoracic Society. 2015, Denver, CO.

Autologous Blood Patch Pleurodesis for Persistent Air-Leak from Secondary Spontaneous Pneumothorax: A Systematic Review. **Kapoor S, Al-Saffar F, Bajwa AA, Shujaat A**. American Thoracic Society. 2015, Denver, CO.

NICOM predicted stroke volume correlated with changes in 6 MWD in PAH population. **Bajwa AA, Gupta E, Louis M, Jones LM, Shujaat A, Cury JD, Seeram V**. American Heart Association 2015. Effect of Aspirin on prevention of venous thromboembolism in critically ill mechanically ventilated patients. **Gupta E, Bajwa AA, Shujaat A**. American College of Chest Physician 2015, Montreal, Canada.

Effect of PAH specific therapy on pulmonary hemodynamics and 6 minute walk distance in chronic thromboembolic pulmonary hypertension: a meta-analysis. **Faisal M, Bajwa AA, Shujaat A**. American College of Chest Physician 2015, Montreal, Canada.

#### **HONORS AND AWARDS**

Lisa M Jones M.D.	Exemplary Teacher Awards	2015
Abubakr A Bajwa M.D.	Exemplary Teacher Awards	2015
Vandana Seeram M.D.	Exemplary Teacher Awards	2015

#### **CLINICAL ACTIVITIES**

	AY 14/15
Inpatient activity	
Initial IP Encounters	705
Outpatient activity	
Clinical Visits	5357
Procedures	
Bronchoscopies	720
Sleep Studies	1079

#### **CONTRACTS AND GRANTS**

Principal Investigator	Study Title	Project Period	Sponsor	Award Amount
Bajwa, AA	A Post marketing Observational Study to Assess Respiratory Tract Adverse Events in Pulmonary Arterial Hypertension Patients Treated with Tyvaso® (treprostinil) Inhalation Solution (ASPIRE)	3/16/12 – 3/16/18	United Therapeutics	60,217.75
Bajwa, AA	Phase 3 study of efficacy and safety of Pirfenidone in idiopathic pulmonary fibrosis. (ASCEND).	9/20/11- 9/20/14	Intermune	80,095.75
Bajwa, AA	Randomized, double-blind, placebo-controlled study of the safety, tolerability, pharmacokinetics and pharmacodynamics of ascending repeated doses of SAR156597 in patients with idiopathic pulmonary fibrosis (IPF) TDR11326	8/24/12- 8/23/15	Sanofi-Aventis	23,072.00
Bajwa, AA	An Open-Label Extension Study of the Long-Term Safety of Pirfenidone in Patients with Idiopathic Pulmonary Fibrosis (IPF)	7/29/11- 7/29/17	Intermune	18,395.30
Bajwa, AA	GS-US-322-0207 (RAINIER) A Phase 2 study for subjects with Idiopathic Pulmonary Fibrosis	1/30/13- 1/29/16	Gilead	62,121.20
Bajwa, AA	MOTION, Measuring Outcomes in Treatment Naive Patients	1/6/15- 1/5/18	Bayer	2,737.15
Bajwa, AA	SYMPHONY: A Study Of Macitentan In Pulmonary Arterial Hypertension To Validate The PAH-SYMPACT	12/23/13- 12/22/17	Actelion	14,390.00
Bajwa, AA	A 16-Week, International, Multicenter, Double-Blind, Randomized, Placebo- Controlled Comparison of the Efficacy and Safety of Oral UT-15C Sustained Release Tablets in Subjects with Pulmonary Arterial Hypertension on background therapy	10/10/13- 10/9/16	United Therapeutics	51,170.00
Bajwa, AA	A treatment protocol to allow patients in the US with IPF access to Pirfenidone	7/8/14- 7/17/17	Intermune	12,860.00
Bajwa, AA	A multicenter, doubled-blind, randomized, placebo-controlled, Phase 3 study to assess the efficacy and safety of oral BPS-314d-MR Added-on to treprostinil, inhaled (Tyvaso ®) in subjects with pulmonary arterial hypertension. (BEAT)	10/10/13- 10/9/16	United Therapeutics	51,170.00
Cury JD	A Clinical Outcomes Study to compare the effect of Fluticasone Furoate/Vilanterol Inhalation Powder 100/25mcg with placebo on Survival in Subjects with moderate Chronic Obstructive Pulmonary Disease (COPD) and a history of or at increased risk for cardiovascular disease	1/7/2013- 9/7/2015	Glaxo Smith Kline	74,527.50
Jones LM	Implementation of a protocol, for early identification and management of sepsis, severe sepsis/septic shock patients -An institution wide multidisciplinary collaborative.	7/2012- 9/2015	UF Clinical Quality Award Grant	25,000.00

# DIVISION OF RHEUMATOLOGY AND CLINICAL IMMUNOLOGY ACADEMIC YEAR 2015 (7/14 - 6/15)

#### **Highlights**

The Division of Rheumatology and Clinical Immunology had a successful and productive academic year on multiple levels. Despite significant challenges, we have seen some of the fruits of our dedication to the University of Florida College of Medicine—Jacksonville (UFCOM-J) mission. We are grateful for the continued guidance of our leadership, including the education deans, as well as our chairman, Dr. Arshag Mooradian. The division had significant accomplishments in patient care, research and education.

The division successfully graduated the third rheumatology fellow in June 2015, from its UFCOM-J Rheumatology Fellowship training program. Of note the prior two fellows are not only ABIM board certified in Rheumatology, but also successfully attained the American College of Rheumatology RhMSUS certification for musculoskeletal ultrasound. In addition, the graduating fellow, Dr. Laurie Ramrattan successfully attained the International Society of Clinical Densitometry (ISCD) clinical certification in Densitometry during her final year. The division will plan to reapply for fellowship with increased faculty numbers in the next academic year. Meanwhile, we continue to work with other training programs and the GME office at UFCOM-J in order to provide mentoring and teaching for many students and residents who are interested in our specialty. The division organized the sixth extremely successful annual CME musculoskeletal ultrasound sound training course. It was attended by national and international Rheumatologists as well as fellows in training.

Dr. Thway joined the Division in February 2015. She is a specialist in Internal Medicine and Clinical Immunology and Rheumatology. Dr. Thway serves as Assistant Professor at the University of Florida, College of Medicine-Jacksonville. She received her medical degree from the Institute of Medicine in Yangon, Myanmar, and completed her fellowship training at the University of Miami, Milller School of Medicine. Prior to this, she had served as a clinical educator at the same institution. She has special interest in Systemic Lupus Erythematosus as well as resident education and clinical research.

Currently, the division is planning an expansion by recruiting more faculty members. However, the backbone to our success is the loyal and hardworking staff at our clinics, hospital and administrative offices.

**Patient care:** Despite faculty reduction, we were able to maintain our clinical volume and growth. Patients with numerous medical conditions including, but not limited to, many types of arthritis, lupus, scleroderma, myositis, autoimmune and systemic diseases, osteoporosis, connective tissue diseases related to inflammation and metabolic dysfunction, soft tissue conditions and pain such as fibromyalgia. We continue to be on the forefront of providing the very up to date rheumatology services and 24/7 consultations at UF Health Jacksonville, the Ambulatory Care Clinic and our dedicated outpatient clinic on Emerson Street. The division also provides musculoskeletal ultrasound services related to rheumatologic care both for inpatient and outpatient settings.

In the outpatient setting, we provide full rheumatology coverage from Monday through Friday, where we provide diagnostic musculoskeletal ultrasound and musculoskeletal procedures under ultrasound guidance.

Excellence is our only goal when it comes to patient care. Our faculty members achieved or exceeded the average in our specialty and in comparison to others at our institution. We touch our patients' lives during some of the most vulnerable moments they will ever encounter alone or with their loved ones. As physicians of the UFCOM-J, we always strive for excellence in our practice.

**Education:** Education is one of the main missions at the UFCOM-J. Our faculty members have been very dedicated and creative in delivering the best of what they can offer to our students and residents. Our achievements in education were highlighted in multiple venues but the rheumatology fellowship program

was a major cornerstone in the growth and development of our academic program.

The Rheumatology Fellowship started in July 2011. It has graduated three fellows. Dr. Laurie Ramrattan graduated in June 2015 and has gone to Trinidad to practice Rheumatology. The fellowship provided a strong clinical focus as well as many opportunities in clinical research, quality improvement as well as musculoskeletal ultrasound. The fellowship had accreditation until July 2015. The division will re-apply for fellowship in the next academic year.

In the educational program of the University of Florida medical students and residents, Dr. Taba, Dr. Thway and Dr. Kaeley participated in precepting clinics in rheumatology and delivered core curriculum lectures for the Internal Medicine Residency Program at the UFCOM-J. The rheumatology faculty members participated in internal medicine Grand Rounds and shared the knowledge of their invited rheumatology speakers on a regular basis.

The sixth Musculoskeletal Ultrasound Course in February 2015 was a great success. This was a 3-day CME hands-on training course that uniquely utilized our state of the art simulation laboratory at the UFCOM-J. Dr. Kaeley organized the course, as well as serving as faculty providing lectures and practical ultrasound instruction. Dr. Thway served as the course assistant, as well as anatomy prosector and instructor. The course was attended by rheumatology educators and fellows from 28 States, as well as from Canada. The attendees were very complimentary of the innovative cadaver-based curriculum held in the UFCOM-J CSESaR Simulation Center. The division also hosted the Canadian Rheumatology Ultrasound Society (CRUS) Teach the Teachers Course in interventional musculoskeletal ultrasound, which was held at the CSESaR Simulation Center. It was received very well and was featured in the Canadian Society of Rheumatology newsletter. The division is grateful for the hard work of the simulation staff in making the courses such a success. The division also continues to be heavily involved with musculoskeletal ultrasound training at the national and international levels. The division has also been deeply involved in musculoskeletal ultrasound advocacy by assisting the American College of Rheumatology and Florida Society of Rheumatology in coordinating efforts to interact with Medicare representatives.

E-Learning is an entrepreneur unique project that was pioneered by Dr. Kaeley. The aim of this project is to develop electronic learning content to cover basic Rheumatology Core Curriculum, as well as musculoskeletal ultrasound training material. Internal Medicine Residents need to assimilate core knowledge rapidly in order to gain the most out of the clinical Rheumatology rotations. This is now being developed as a blended learning project for the Rheumatology fellows as well as rotating internal medicine residents. Starting in June 2013, a blended learning system was introduced under the leadership of Dr. Kaeley for the Rheumatology Fellowship utilizing Canvas as a learning management system.

**Research:** The division has been growing its research enterprise. Although the division is active in numerous pharmaceutical trials, its emphasis is to develop investigator initiated trials as well as to seek grants. The division is collaborating with Center for Health Equity and Quality Research (CHEQR), as well as the UF Health Cardiology division. Projects so far have included studying cardiovascular health in Caucasian cocaine abusers, as well as correlating dysfunctional HDL with other imaging and cardiovascular biomarkers in South Asians. Dr. Kaeley was awarded the Dean's Grant for the study on cardiovascular markers in South Asians. The division is actively collaborating with the University of California, Los Angeles Division of Rheumatology in a bi-center prospective trial of Tocilizumab in Rheumatoid Arthritis, utilizing Power Doppler as a secondary outcome measure. The division has also been evaluating Medicare Expenditures for Musculoskeletal Ultrasound as well as drug utilization. Members of the division are closely involved with the Outcome in Clinical Rheumatology Trials (OMERACT) musculoskeletal ultrasound group and is leading the project at developing sonographic outcome tools in psoriatic arthritis and dactylitis.

65

#### LISTING OF FACULTY MEMBERS

#### Gurjit S Kaeley, M.B.B.S., Associate Professor and Chief

Medical School/Graduation date	The London Hospital Medical College, London, UK	1990
Internship/residency and year	University of Tennessee College of Medicine	1996
Subspecialty training and year	University of Tennessee College of Medicine	1998

#### Reza Taba, M.D., Assistant Professor

Medical School/Graduation date	University of Isfahan	1970
Internship/residency and year	Medical College of Ohio	1976
Subspecialty training and year	University of Louisville School of Medicine	1978

#### Myint Thway, M.D., Assistant Professor

Medical School/Graduation date	Institute of Medicine, Yangon, Myanmar	2000
Internship/residency and year	Lutheran Medical Center, New York	2009
Subspecialty training and year	University of Miami, Miller School of Medicine	2014

#### **PUBLICATIONS**

#### **Manuscripts:**

International Consensus for Ultrasound Lesions in Gout: Results of Delphi Process and Web-Reliability Exercise. Gutierrez M, Schmidt WA, Thiele RG, Keen HI, **Kaeley GS**, Naredo E, Iagnocco A, Bruyn GA, Balint PV, Filippucci E, Mandl P, Kane D, Pineda C, Delle Sedie A, Hammer HB, Christensen R, D'Agostino MA, Terslev L; OMERACT Ultrasound Gout Task Force group. #### **CONTRACTS AND GRANTS**

Principal Investigator	Study Title	Project Period	Sponsor	Award Amount
Kaeley, G.	M13-550: A Randomized, Double-Blind, Placebo-Controlled, Phase 2 Study to Investigate the Safety and Efficacy of ABT-494 Given with Methotrexate (MTX) in Subjects with Moderately to Severely Active Rheumatoid Arthritis (RA) Who Have Had an Inadequate Response or Intolerance to Anti-TNF Biologic Therapy	6/19/2014 – Present	Abbvie	\$387,022.40
Kaeley, G. Dodani, S. Co-PI	Association of Coronary Artery Calcium Scores (CACS) and Carotid Intima Media Thickness (CIMT) with HDL function: South Asian Immigrants HDL Study (SAIHDLS). Objective: To assess the prevalence of Dysfunctional HDL and Metabolic syndrome in high risk South Asians without coronary artery disease. To determine association of dysfunctional HDL with CIMT and CACs.	01/22/2015	UF COM, Jacksonville	Dean's Grant

Kaeley, G.	Unrestricted equipment loan from Biosound Esaote. Objectives are to; (a) Review the feasibility of 3D and 4D Musculoskeletal Ultrasound; (b) Review the utilization of very high frequency linear ultrasound probes to examine finger enthuses; and (c) Examine the reliability and feasibility of radiofrequency acquisition of carotid intima thickening and carotid stiffness in rheumatic patients. Mentor: Sunita Dodani MD, MSc, PhD	2009 – Present	Biosound Esaote	N/A
Kaeley, G.	Musculoskeletal Ultrasound in Predicting Early Dose Titration with Tocilizumab. Collaborative investigator initiated study with University of California, Los Angeles. Objective: To determine if ultrasound Power Doppler synovitis scores at 4 weeks can provide early evidence to predict changes in disease activity at 12 weeks follow up in RA patients treated with 4mg/kg of TCZ.	09/04/2014- Present	UCLA	\$347,255.00
Kaeley, G.	M13-375: A Multicenter, Randomized, Double-Blind, Study Comparing the Efficacy and Safety of Continuing Versus Withdrawing Adalimumab Therapy in Maintaining Remission in Subjects with Non-Radiographic Axial Spondyloarthritis	01/24/2014- Present	Abbvie	\$540,717.50
Kaeley, G.	The CORRONA data collection program and CERTAIN study	4/5/2012-2015	Consortium of Rheumatology Research	\$8,175.00
Kaeley, G.	A Randomized, Double-Blind, Placebo-Controlled Study to Evaluate the Efficacy and Safety of Etanercept in Subjects With Moderately Active Rheumatoid Arthritis despite DMARD Therapy.	7/7/2011-7/7/2014	Amgen, Inc.	\$38,093.70
Kaeley, G. Ramrattan, L. (Fellow) Co-PI	Significance of Extensor Tendon Abnormalities in Rheumatoid Arthritis using Ultrasound. (Fellow Project)	2014- Present	UF COM, Jacksonville	Dean's Grant
Kaeley, G.	A3921133: Phase 3B/4 Randomized Safety Endpoint Study Of 2 Doses Of Tofacitinib In Comparison To A Tumor Necrosis Factor (TNF) Inhibitor In Subjects With Rheumatoid Arthritis	7/5/2014- Present	Pfizer	\$172,900.62
Kaeley, G.	FKB327-002: A Randomised, Blinded, Active-Controlled Study to Compare FKB327 Efficacy and Safety with the Comparator Humira® in Rheumatoid Arthritis Patients Inadequately Controlled on Methotrexate (ARABESC)	02/19/2015- Present	Fujifilm Kyowa Kirin Biologics Co., Ltd.	\$119,367.18
Kaeley, G. Thway, M. Co-PI	M13-538: Phase 2 Study, Multicenter, Open-Label Extension (OLE) Study in Rheumatoid Arthritis Subjects Who Have Completed a Preceding Phase 2 Randomized Controlled Trial (RCT) with ABT-494	10/22/2014- Present	Abbvie	\$676,642.56
Kaeley, G. Thway, M. Co-PI	FKB327-002: A Randomised, Blinded, Active-Controlled Study to Compare FKB327 Efficacy and Safety with the Comparator Humira® in Rheumatoid Arthritis Patients Inadequately Controlled on Methotrexate (ARABESC)	02/19/2015- Present	Fujifilm Kyowa Kirin Biologics Co., Ltd.	\$14,885.70
Kaeley, G. Thway, M. Co-PI	A3921133: Phase 3B/4 Randomized Safety Endpoint Study Of 2 Doses Of Tofacitinib In Comparison To A Tumor Necrosis Factor (TNF) Inhibitor In Subjects With Rheumatoid Arthritis	7/5/2014- Present	Pfizer	\$8,724.73
